description:

Model Tender Zodiac Cadet 310 Rib (cod. Z11310) with fiberglass hull, overall length 3.10 meters. The line of Cadet Rib tender and characterized by the fiberglass hull and the particular progressive diameter of the tubular. They are in fact more wide aft own to support the outboard four-stroke engines, today the most common and also the most heavy. This boat is therefore more stable than those of the competition, the plan of caplestio and counter molded with anti-skid pattern and were integrated of the lifting points. The hull and moderate type V-type engine with self-draining port plate Price + commissions
